

RuckerRun Boston Terriers Health Warranty and Adoption Agreement

Adoptive guardian name:

Address:

Phone number(s):

Email(s):

Puppy temporary name /or AKC #:

Puppy proposed AKC name:

Puppy birthdate:

Parents call names:

Microchip#:

Color:

At 8 weeks of age your puppy saw a licensed veterinarian and got issued a Florida Health Certificate and first set of puppy shots including bordatella, (kennel cough) the date was:

Please schedule your pups next puppy shots with your own veterinarian

for the week of: It is not required by RuckerRun Boston Terriers to see your veterinarian before that period unless there is a health problem or concern.

RuckerRun's standard medication/worming protocols are:

2, 4, 6 worming Pyrantel Pamoate (Nemex 2)

5 weeks fenbendazole (Safeguard wormer)

4,8 weeks Toltrazuril (coccidia preventive and RX) really good stuff ...

Parental Health Testing done: DNA Full panel diseases____,Partial_____.

All of our breeding dogs are evaluated by a licensed veterinarian for good heart, lungs, skin, legs, patellas, spine and overall good health. They receive vaccinations according to a standardized protocol as well being well loved and handled daily with high quality dog food and **nuvet** supplement on a daily basis.

Health Warranty:

We offer a very simple health warranty of one year against life threatening, hereditary defects. Please be aware that the following conditions are in your pups DNA for the breed and these include, breathing issues linked to stenotic nares (tight nostrils), elongated soft palate, cherry eye, loose patella, overbite, soft non-erect ears, innocent low grade heart murmur (pup grows out of it by one year old) or any other conditions common to the boston terrier breed.

Refund: If unfortunately we have to replace your pup for health reasons you will have the choice to a full refund of your purchase price or another puppy when one comes available to your liking.

Returns: Occasionally life unexpectedly intervenes with our plans in life and you cannot keep your pup/dog and you cannot find a family member etc to take him/her. We offer our "boomerang policy" and will take your dog and help to find it a new forever home. We do not want any of our pups/dogs to end up in a shelter somewhere.

Microchip: Your pup has had a microchip implanted underneath the skin at the top of spine between shoulder blades. This can be scanned by the veterinarian and identifies your dog with a specific number that can be traced back to you in case your pup is lost. RuckerRun activates and registers this microchip for you. You will get an email with a pin number and have the ability to edit your contact information or add another contact.

AKC PAPERWORK: Your pup is an AKC registered Limited____(not for breeding) or full____ dog and you can truly be proud of this. We can trace his/her lineage all the way back to the first boston terriers of the breed. In addition, AKC requires DNA testing all males with 5 litters or more to be on file. RuckerRun pays for your AKC and Transfers your pup into your name.

RuckerRun will use the prefix RuckerRun's for your pups registered name, followed by your request for a call name. You need to do nothing but come up with a name.

Health Insurance: Your pup comes with a complimentary one month of health insurance through akc. This will need to be activated via email. Do your research and consider health insurance because of the high costs of vet expenses are through the roof anymore, it seems! In addition, you get a complimentary vet visit through AKC partners if you wish to use it.

NuVet vitamin Supplement: WE request you buy and use this at least for your pups first year as we have seen the proof in boosted immunity to viruses in our own dogs which are on it for life. Order at nuvet.com and use the code 46483 and save 15% on auto ship. We like the tablets as we break up and use as treats.
